THE COMING YOUNG REPUBLI-CAN MEET.

Every indication, according to D. B. Interest in the forthcomng convention is being shown throughout the entire country, Secretury Atherton being in receipt of lists delegates that already run into the Pennsylvania and New York stand side by side in the number of their delegates, followed closely by Wisconsin, Michigan, Massachusetts Illinois, even far away California having selected 20 delegates to represent the golden west, President Taft has stated to Mr. Hammond that he will address the elegates at the banquet to be held at the Hotel Astor on the evening of october 1st, in which speech it is excted he will outline the republican

The Automobile Factory. The automobile factory is a greate inducement for city growth than the brewery. At least that is the fact so far as established by the comparative growth of Detroit and Milwaukee in the past 10 years. They started at close to a tle in 1900 with 285,704 peoclose to a tie in 1900 with 285,704 people in the former and 285,315 in the latter. Now Detroit is counted for 465.766, a gain of 63 per cent., and Milwaukee for 373,857, a gain of only 31 per cent. If former Mayor Rose were still talking in Worcester he might explain the lack of growth for Milwaukee in some other way, but the general conclusion is that the automobile makers ahve filled Detroit so full of business that Milwaukee has not had a fair show. Wisconsin is not pleased with that exhibit at the auto pleased with that exhibit at the auto-city of Michigan, and there may be an interstate war over it if politics does not take up too much of the attention cannot be possible that socialism has had a tendency to keep the growth of Milwaukee back, because all the people of this country are said to be very fond of socialism and more than half of the immigrants just love it.
